- **LoRa module**
- **Temperature sensors**
- **Long-range wireless**
- **Cold-chain monitoring**

The MOD-LORA-01 is a LoRa module for temperature-sensor applications with the MDT880. It is intended for use together with Topicon temperature-sensor solutions such as the U350 sensor.

It enables long-range wireless communication in monitoring and cold-chain scenarios where sensor data must be collected reliably.

Compatible with: Topicon MDT880, Topicon MDT865, Topicon MDT1065, Topicon MDT1080
