This beautiful enclosure for Mini-ITX can be equipped with every mainboard where CPU heatsink height does not exceed 5,8cm. At the front side there are 2 removeable bezels which hide connectors for 2x USB, 1x Mic, 1x Line-Out, 1x 4pol power and 1x SATA.

Because of the integrated ATX 120W power supply and the external 84W AC/DC adapter you fanless can power also systems with higher performance. For using the system as a car-pc you can exchange the internal PSU against a M2-ATX(-HV) Automotive power supply.

When system is turned on, the front bezel is enlighted in blue power.

We offer an optional VESA mounting bracket for this enclosure.
