

Installation/Configuration CTFCAM IP cameras

CTFCAMs can only be configured through an Active-X control element under Internet Explorer (32bit).

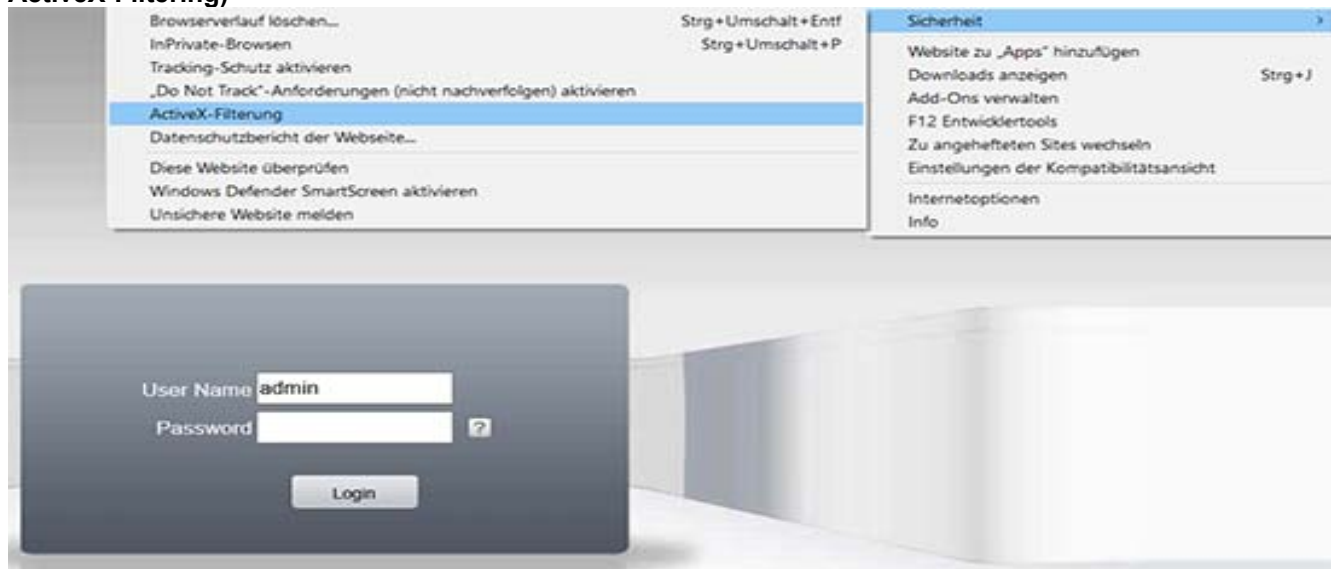

- 1.) Install "Camera_Plugin_Installation.exe"
- 2.) Open "Internet Explorer" (32 bit version ! If you have 64bit OS then start "C:\Program Files (x86)\Internet Explorer\iexplore.exe" (32bit version)
- 3.) Connect to your camera <http://192.168.1.10> (User : admin, Passwort empty)

If it does not work then please ensure that the ActiveX element is properly installed, activated and allowed to run by setting compability mode, allowing ActiveX elements and activating the ActiveX addon element :

Add camera IP address to compability mode list (Click "gear symbol" in upper right corner of IE, then choose Compatibility mode settings :

Disable ActiveX-Filtering : (Click "gear symbol" in upper right corner of IE, then choose "Security" and disable ActiveX-Filtering)

Add-Ons verwalten

Internet Explorer-Add-Ons anzeigen und verwalten

The screenshot shows the 'Add-Ons verwalten' (Manage Add-ons) window in Internet Explorer. On the left, under 'Add-On-Typen', 'Symbolleisten und Erweiterungen' is selected. Below it, 'Suchanbieter', 'Schnellinfos', and 'Tracking-Schutz' are listed. On the right, a table lists installed add-ons. The first entry is 'Web Control' by '(Nicht verifiziert) Microsoft', which is 'Aktiviert' (Activated) and has a '32-Bit' architecture. A 'Weitere Informationen' (More information) dialog box is open over this entry. It displays the following details:

Below the details, there is a 'Kopieren' (Copy) button and a section titled 'Sie haben die Ausführung dieses Add-Ons auf den folgenden Websites zugelassen:' (You have allowed the execution of this add-on on the following websites:), which is currently empty. At the bottom of the dialog, there are two buttons: 'Alle Sites entfernen' (Remove all sites) and 'Auf allen Sites zulassen' (Allow on all sites). A note explains: 'Über "Alle Sites entfernen" wird das Add-On von allen Websites entfernt. Über "Auf allen Sites zulassen" wird die Ausführung des Steuerelements auf allen Websites zugelassen.' (By clicking 'Remove all sites', the add-on is removed from all websites. By clicking 'Allow on all sites', the execution of the control element is allowed on all websites.) At the very bottom of the dialog are 'Entfernen' (Remove) and 'Schließen' (Close) buttons.
