- **Zebra SE4107 2D imager**
- **1D and 2D barcode scanning**
- **1280 x 960 resolution**
- **Reads screens and damaged codes**

The MOD-BAR-01 is an optional barcode scanner module for the MDT880. It integrates a Zebra SE4107 2D imager with 1280 x 960 resolution and supports 1D and 2D symbologies, including reading from mobile screens and damaged barcodes.

With green LED aiming and warm white illumination, it is a practical upgrade for logistics, warehousing, delivery and service workflows that require fast and reliable data capture.

**Compatible with:** Topicon MDT880, Topicon MDT865, Topicon MDT1065
