Wireless 802.11ac 2x2

Intel® Wireless-AC enables smoother streaming, fewer dropped connections, and more speed farther away from the router. Nearly 3x faster Wi-Fi speeds (up to 433 Mbps) than 802.11n (150Mbps) based products.

Bluetooth® 4.2

Dual mode Bluetooth® 4.2 enables BR/EDR-low energy devices to act as a hub and peripheral at the same time. Connects to the newest low energy Bluetooth® products as well as your familiar devices, such as headsets, keyboards, mice, and more.

Optimized for Intel Platforms

Recommended wireless solution for 7th Generation Intel® Core™ processors and ensures your business is protected from the latest threats with wireless support for 7th Generation Intel® vPro™ processors. Enables Intel® Authenticate Bluetooth® proximity usage models.

MU-MIMO

Downlink MU-MIMO allows an Access Point to simultaneously transmit data to multiple clients and can improve overall downlink network capacity by up to 3x.
